

Declare war on Racism!

Revolution is organising against racism, and fighting for a mass movement that will unite Black, Asian and White together against it. Do you agree that the Labour government's attacks on asylum seekers have to be stopped? Do you think that the Sun and Daily Mail are full of lies that make immigrants look like criminals? Do you agree that the BNP and fascists like them are growing because of the "respectable" racism of the government and media? Do you agree that racist harassment by the police and deaths in custody are a crime? If you do then join our campaign and lets kick racism out of Britain for good!
